

Golf News

The local golf championship matches, both men's and women's, are calling out all the enthusiastic golfers in town and countryside.

This week the ladies are playing two flights, the first for the cup includes Mrs. Hilday, Miss Watson, Mrs. Van Tubben, Mrs. Patrick, Mrs. Wright, Mrs. Brown, Mrs. Williams, Mrs. Tompkins.

The second for the medal includes Mrs. Girvin, Mrs. D. French, Miss Young, Mrs. Lyddell, Miss Gibson, Mrs. T. Chamberlain, Mrs. Stockton, Mrs. S. Chamberlain.

The "adder" is again coming to the fore, with a prize to be presented on Thanksgiving Day to the lady who can boast of the greatest number of victories on the ladder during the present season. Challenge the next above you on the ladder, before you are challenged by the one below you.

MINERAL TAX

Payments of the provincial mineral tax are coming in steadily to the department of Municipal Affairs. This tax was put into effect last April and is a tax of three cents an acre on mineral lands including oil lands. The C.P.R., which has the large holdings of this class, has appealed to the Federal Govt. to disallow the legislation, and the Alberta Govt. has taken steps to combat this appeal.

BUFFALO HEAD GROWS

So fast has the Dominion Govt. buffalo herd at Watulight grown that it is now found necessary to slaughter 2500 head. A contract has been given for this in an Edmonton man, and a factory for the manufacture of pemican from the buffalo meat is to be established in Edmonton. This role is used extensively in the north.

CUSTOM HAD GOOD MONTH
IN AUGUST—GOOD GAIN
Ottawa, Sept. 4.—Customs and excise revenue during the present month totals \$26,600,701. Customs import duties show an increase of \$156,675 over August last year; excise taxes, an increase of \$754,446 and excise duties one of \$20,425. The only branch to show a decrease was sundry collections, these being down \$727. Customs and excise revenue for the five months of the fiscal year ended August totals \$125,567,549, an increase of \$18,721,182 over the corresponding period of last year.

School Fair Sept. 19th

The third annual School Fair by Strathmore and district pupils will be held at Strathmore School on Wednesday next. The last two fairs were very good indeed, but with the exception of the fine weather during the opening season the exhibits this year should surpass those of former years.

Pupils and teachers are already setting their exhibits in shape. All that is wanted now is the cooperation of parents and friends in turning out next Wednesday to inspect the children's work.

The following schools are taking part in the fair: Strathmore, Berta Vale, Canwell, Glenora, Orange Valley, Altonbad.

There are other schools throughout the district which might be in, to the great advantage of the children, but the trustees have not seen fit to contribute to the prize fund. All other expenses, and part of the prize money, is supplied by the department of Agriculture, which also supplies the judges.

Don't forget the date is September 19, and the place Strathmore School. Lunch will be served by the Women's Institute and U.F.W.A.

THE VALUE OF THE LOCAL NEWSPAPER

Each year the local newspaper gives from \$500 to \$1500 in free time to the community in which it is located. No other agency can or will do this. The editor in proportion to his means does more for his home town than any other man and in all fairness he ought to be supported, not because you like him or admire his writings, but because the local paper is the best investment the community can make.—From "The Hardware and Metal" magazine.

of \$20,425. The only branch to show a decrease was sundry collections, these being down \$727. Customs and excise revenue for the five months of the fiscal year ended August totals \$125,567,549, an increase of \$18,721,182 over the corresponding period of last year.

NO MENTION OF THE PRICE

With the plebiscite on prohibition only two months distant, the campaign is beginning to take form. Both sides are showing signs of speeding up and there is promise of some excitement before November 5th.

The Moderation League has been carrying on an advertising campaign during the past two months, but there is one point which seems to be entirely forgotten by both sides. We refer to the price of beer, should the "wet" win, and beer be placed on sale. It would be interesting to know just what the Moderationists consider a fair price for this commodity.

If there is any probability of beer being sold at five or ten cents per glass, we want to know it. On the other hand, if the public is to be robbed, as it was in the old days, when beer sold in Alberta for fifteen cents, there are thousands of Moderationists who will vote "dry."

The Herald thinks it is none too soon to hear something on this side of the question. The brewers of Alberta might well tell us what they think.

THREE STARS IN THIS FILM

A combination of proven elements in photoplay making, come to the Memorial Hall on Saturday, when Universal presents "The Long Chance," filmed from Peter B. Kyne's story as an all-star production.

Universal apparently took no chances in the making of this unusual feature. Nothing was left to ordinary judgment.

The cast itself is composed of favorites of long standing—Henry B. Walthall, famous character artist, Ralph Graves, Griffith "find," Marie Dew, one of the screen's most popular beauties, and Grace Marvin, William Berran, Leonard Clark, Jack Curtis, George A. Williams, Lloyd Irwin, Margaret Cullington and Mel Wells, all successful players.

Jack Conway directed it with the ability which has kept him in the front rank of directors for several years. One of his current successes is "Don't Shoot," starring Herbert Rawlinson.

Peter B. Kyne's stories usually are above the average in dramatic merit, and no less an expert than the supervisor of the Universal City scenario department, Raymond Schrock, was assigned to prepare the western style for screening.

King Edward Hotel & Grill

Said the advertising manager of a big mail order house, in a recent address:

"We have a bureau whose duty it is to read each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers and when we find a town where the merchants are not advertising in the local paper we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers."

Stay With the Pool

The desired objective of fifty per cent. of the 1922 acreage of wheat having not been contacted by September 5th, the Pool Trustees, in accordance with the contract, are giving those who signed the option of withdrawing up till September 20th.

We would counsel any who might be inclined to take this course to think very carefully first, and not to act hastily. They have till September 22nd to withdraw, and by that time some of the points on which discussion has been created will have been settled favorably.

Even though the date for getting the required fifty per cent. has been passed, contracts are coming in to the Pool in volume, and there is no doubt that over fifty per cent. will be met. The urgency of harvest has prevented many from taking the time to examine the contract carefully, and now the arguments for and against Cooperation have been adopted, and are working well in every other line of industry. There is very little competition on the grain market today. Prices are set for every elevator in Alberta by little groups of men in Winnipeg and Calgary. They have much more to say as to the price the grain shall be bought for than the man who raises it. Objections have been raised by some of these men, and these objections are easy to understand.

The objections raised by some farmers, so far as we have heard them, are that they do not like the idea of H. W. Wood being chairman of the Wheat Pool Committee; that they are afraid of its being gobbled up by the U.G.G.; but the main objection is that only a percentage for the price of grain will be paid on delivery, and the balance sometime between now and next August. Other minor points have been raised, but these are the main ones.

With regard to the first objection, Mr. Wood's present position is due to the U.F.A. machinery having been used to organize the pool drive, his ability as an organizer, and his former experience with the Grain Board. He is not a practical grain man, but he knows that himself, as is witnessed by last year refusing the management of the compulsory wheat pool when it was offered to him. Also it is no secret that he refused the Premiership of this Province. So it can hardly be thought that he would assume a position on the Wheat Pool which he was incompetent to fill. The second objection, with regard to the U.G.G., is far fetched. The U.G.G. is a grain dealing company, its share-holders being composed of farmers, its executive officers comprise a number of men of undoubted ability in the grain business. If they are offered positions on the Wheat Pool it will be because of their ability and not because of their association with the U.G.G. The objection raised as to part payment at time of delivery, and remainder later on is one that is taken by every co-operative company. The man who takes the cash price in the fall will probably lose twenty or thirty cents as compared with the man who ships through the pool, or who holds his grain till next spring. The man who is going to hold his wheat might as well hold it through the agency of the pool.

There are some clauses in the contract which have been taken objection to, but these are being considered, and the present system should be taken as a comparison. All the grain elevators and other machinery throughout the country, have been built on the revenue from grain. The farmer has paid for them, but he does not own them, and at present he has no control over them or over the men who make their salaries and commissions off his grain. Under the pool system he will have. At some date before November 20th the mem-

VOLUNTEERS FOR HARVEST HELP

Nearly 150 men students from the two normal schools in Calgary have volunteered for work in the harvest fields of the province, and have been granted leave for a month from their studies, for that purpose.

Members of the pool will elect trustees of their own choosing.

Every wheat raiser who has not yet signed for the pool should give these facts due consideration. He can yet sign for the pool, and his bit towards a more equitable and business-like system of grain marketing.

One reason why the required fifty per cent. of the acreage of the province was not signed by September 5th, was that adequate publicity was not given. The newspapers were nearly all willing to help, but very little information was handed out. Of course, the time for organization was very short, but the services of a good publicity man at the Wheat Pool offices would have been of very great value.

Another reason is that much of the land in the province is held by non-residents, and they have either not been approached with regard to the pool, or have not been able to send their contracts back yet. For instance, one former Strathmore resident, now in Victoria, wrote to Strathmore for a dozen contracts, but has not yet sent them back, unless they have gone direct to head office.

While not quite fifty per cent. of the acreage has yet been signed, it is certain that well over fifty per cent. of the resident farmers have signed, the probability being that about seventy-five per cent. of the farmers in the Province have signed. This remainder are mainly holders of big acreages or non-residents.

All Roads Built and Maintained By Government In Future In Quebec.

Premier Taschereau, of Quebec, made public an interesting statement a short time ago. He was dealing with the financial position of his province.

He said that the revenue of Quebec was now so buoyant and certain that in future the government would not only carry on its extensive programme of road construction, but would also maintain the roads in good condition after they were built.

He said it would no longer be necessary to ask the farmers to pay taxes for road building, nor would it be necessary to ask the municipalities to spend money to keep the roads up. In addition, he declared, there was not much sense putting money into roads unless they were kept in good state of repair after they were constructed.

So the government proposed doing the whole thing, asking for neither taxes nor work from the people living along the roads.

Premier Taschereau said that this

policy was made possible because the province was now getting the revenue that formerly went to bootleggers and others.

At the same time, the government, by controlling all sale of liquor itself, had abolished the bar, had practically killed the business of boot-legging, had reduced drunkenness to a minimum, had placed beer within the reach of the poor man instead of confining the drinking of liquor to the rich, and had assured the sale of chemically pure, guaranteed liquor to those who bought it.

In other words, the method of government control and sale produced true moderation, and the revenues of the province were benefitting, instead of the illicit dealer.

That is something to think about, especially when we, in this province, ponder over the revenue lightness here, and the constant and heavy taxation with the promise of better taxation unless something is done to keep it down.

This ideal combination of newspapers provides you with all the local news, all the important world news, and in addition a home magazine and farm paper without an equal in North America.

ACT QUICKLY—This offer is made for a limited period only.

Orders must be sent to the Strathmore Standard Strathmore, Alberta.

Fine Yield in First Threshing

4½ bushels Wheat To Acre

If the other crops throughout the district turn out anything like as well as that of Messrs Miller & Chomow, two miles south of Rockyford, the yield throughout will be even better than expected. These well-known farmers commenced threshing on Friday and the average yield on some specialties was forty-one and a half bushels wheat per acre, grading No. 1. Mr. Miller states that this is not an exaggerated estimate of yield, that the measurements of the field were taken accurately.

B.C. Team To Visit

FERNIE CHALLENGES FOR BREWERY CUP

Having defeated all comers in Alberta, Rockyford Ball Club is faced with a challenge from Fernie, B.C., to contest the possession of Brewery Cup. Receipt of the challenge has been acknowledged, and arrangements as to the date of the games will be made at an early date.

Rockyford Locals

Dr. Robinson, dentist, strathmore, will visit Rockyford every Monday, and on Tuesday, commencing September 21st. While in Rockyford he will be found in the Atlantic building.

A party consisting of Mr. and Mrs. Miller, Miss Peters, Nebraska, Messrs. Leslie Weir, Barnett, Clifford and Henry Chomow, Warrington, Thompson, etc., last week visited the hospital where the Steinberg group of patients are digging out the fossil dinosaur bones in the Red Deer Valley, near Munson, Alberta. They took some excellent photographs of the scene in the excavation.

Rev. J. H. Gaudin, while in Calgary last week, made arrangements for the centennial anniversary of the Union Church in the City will probably be the speaker at the services, which will be held on Sunday, November 11th, when the Turkey bazaar will be held the following evening.

Now is the time to get busy about winter sports. How about a decision to discuss the building of a skating rink yet. The earlier the better. Let's get something started. How about it, fellows?

Messrs. John, McKee, E. Brown, Zepow, and many others have their threshing outfit ready strong now.

There should be about twenty threshing outfits working in the Rockyford district within the next ten days.

Harvesting is in full swing now, cutting has been practically finished in this district. Roads will probably have another ten days cutting to do but the rest of the farmers are nearly finished.

Mr. W. H. Levitt and family have moved to Runnymede, Alta.

Mr. Sam Davis, assisted by Mr. Sam Shattuck, have taken over the driving interests of Mr. Levitt. Mr. P. Lingenfelder is going harvesting in the Munson district. Mr. W. Walker is also going harvesting, but is staying to home in the Rockyford district.

Any more business men going harvesting? Get out and give the farmers a hand, boys.

Mr. J. P. Doran, of the Bank of Montreal, has acquired a new Ford car. Let's go for a drive, John.

George M. Day, and sister, have opened a general store at Tudor, in the building formerly occupied by the Imperial Lumber Co. They will carry a full line of groceries and dry goods, and extend a hearty invitation to all to visit.

Our regular Bank manager, Mr. J. Black, and family, are away on a three weeks vacation. Mr. H. Blingworth is able filling Mr. Black's position.

Mr. Dr. E. A. Neff, of Edmonton, is visiting her daughter, Mrs. A. G. Hill, over the weekend.

The Rockyford baseball team are just aching to get after the scalp of the Hat boys. When do we play the final game, boys?

The Real Reason for A Pretty Skin

Why is it that one girl has a fresh smooth complexion and another a skin which is lichen, dull and sallow? Is it a gift of nature or some guarded beauty secret?

It is a secret, but an open one in which every woman may share. It consists in knowledge of the care which keeps the skin free from clogging, poisonous accumulations. In the removal every day of all dirt, oil, secretion, excess cold cream, powder and rouge.

To do this, use mild soap, massage it thoroughly into your skin and remove with many rinsings. The mildest soap you can choose for this purpose is Palmolive. It contains Palm and Olive oils. These rare oils are the mildest cleansers nature ever produced. They are the oils used by Cleopatra thousands of years ago.

Their combination in Palmolive removes a profusion of creamy lather which penetrates every tiny pore, removes every trace of dirt, oil, rouge and powder and leaves the skin smooth and fresh as a rose.

You can buy Palmolive Soap at all first-class dealers.

Palm and olive oils—making this the purest soap in the world.

IMPERIAL OIL IS NOT LEAVING THIS PROVINCE

Toronto, Sept. 11. A. M. McQueen, vice-president in charge of operations of the Imperial Oil Company, Limited, in a statement to the press, has been withdrawing the rigs from Alberta, he states there has been a certain amount of switching of rigs as naturally, work is not continued when a hole is found to be dry. Two such holes were abandoned last spring. There has been absolutely no change in policy. For Norbert and he says: "We haven't abandoned our campaign in the west by any means."

GAME LAWS

Hunters are reminded that the duck season will not open until September 15th. The bag limit for ducks and geese is 20 a day or 200 for the season. The open season for Partridge is in October 31, with a bag limit of 10 a day, or 50 for the season.

NEW CHAIRMAN

Judge A. A. Carpenter, chairman of the public utilities board of the province has been appointed chairman of the minimum wage board to succeed A. G. Browning who has gone to Ontario.

Dr. Hubbard, Director of the Department of Health, gives the following figures showing the increase in the number of alcoholic admissions to Bellevue and Kings County Hospitals:

1918	1758
1919	1858
1920	2141
1921	2245
1922	2624

SWISS EDITORS COMING

A party of seven Swiss editors are visiting the province during the coming week, in charge of officials of the C.P.R.
